ANNUAL NEWSLETTER 2022-23

July 2023

Editorial Committee: Dr. V. J. Dongre, Smt. S. N. Raut, Shri S. S. Pise

PRINCIPAL'S MESSAGE

Government Polytechnic Arvi is one of the premier technical institute in Wardha district. It is located in rural area of Vidharbha and serving the society for over 25 years. I sincerely hope that you will take the time to look throughout the newsletter of Electronics & Communication Engg. Department and will be happy to know about facilities and opportunities available for the students who are part of this institute.

Our goal is to support the students for their overall development. We take efforts to make our students able to face challenges and stand confidently in the increasingly complex world. The incredible faculty and staff at Government Polytechnic Arvi continue to encourage all students to set high goals for themselves and to achieve their dreams. To achieve our mission and vision we will continue to develop and grow future leaders.

DR. M. A. ALI

HEAD OF DEPARTMENT DESK

Department of Electronics and Communication Engg. was established in 1995. The department has highly educated and well experienced faculty members who endeavor to produce finest engineers contributing incredibly to the nation. Department has recorded consistent improvement in its academic performance. Our students have been well accepted in their job profiles & have consistently exceeded expectations of the corporate world.

We also encourage students to participate in sports, cultural events, technical events & also get them involved in activities of social events. With all these inputs one finds our students hardworking, practical-oriented & effective in any work environment.

I welcome you to be a part of our journey toward being a world class center of excellence in education & training.

DR. V. J. DONGRE

EDITOR'S DESK

It is indeed a great honour to be the Newsletter Editor for the Electronics and Communication Engg. Department and it is an immense pleasure to launch this edition for July 2023

In this issue, we will recount the various projects and activities in which department is actively involved.

I would like to highlight few points to stay relevant as an engineer, or as a technologist, or as a scientist in tomorrow's society is not going to be easy for any student. Therefore, effective utilization of three years for any student in the institute is very crucial. One can choose to improve upon their classroom participation by doing following:

*Studying together.

*Being prepared to work hard but know your limits.

*Taking notes.

*Taking pride in your work.

Above points will help you in grooming yourself with the set of skills that will be imperative for engineers of tomorrow

Finally, huge thanks to our respected principal Dr. M. A. Ali, HOD Dr. V. J. Dongre and all my colleague, without which this newsletter wouldn't have been completed. Last but not least, I would like to thank Shri S.S. Pise for everlasting support throughout the creation of this edition.
